-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of Species B – figure 2 in the reply filed on 07/20/07 is acknowledged. The traversal is on the ground(s) that there is no additional burden on the examiner since the different embodiments were original searched. This is not found persuasive because that examiner left and a new examiner has taken over the case, therefore the new examiner never searched all the embodiments and has deemed that doing so would be a burden of search on the examiner. The examiner also determined that each embodiment seems to be a different invention and thus would require its own patent.
2. The requirement is still deemed proper and is therefore made FINAL.
3. Claim 15-19 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected Species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 7/20/07.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States

only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 20-28 are rejected under 35 U.S.C. 102(e) as being anticipated by Castro et al. (USPN 6,508,966).

Castro et al. discloses an expandable cannula body (11) with an interior channel or lumen and a plurality of split splines (13) that can be separated and increase the diameter of the lumen of the cannula body (see figure 4, 8-10 and entire reference). The puncture tip is being interpreted as the distal end of the cannula body.

4. Claims 20-28 are rejected under 35 U.S.C. 102(b) as being anticipated by Osada (USPN 6,162,236).

Osada discloses an expandable cannula body (13) with an interior channel or lumen and a plurality of split splines (23) that can be separated and increase the diameter of the lumen of the cannula body (see figure 7, 8, and entire reference) and a retraction head (50). The puncture tip is being interpreted as the distal end of the cannula body.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
